***Important Information Regarding Producer Compensation:**

We pay brokers and agents (referred to collectively as "producers") compensation for their services in connection with the sale of our insured products in compliance with applicable law. We pay "base commissions" based on factors such as product type, amount of premium, group size and number of employees. These commissions are reflected in the premium rate. In addition, we may pay bonuses pursuant to bonus programs established from time to time which are designed to provide incentives to achieve production targets, persistency levels, growth goals or other objectives. Bonuses are not reflected in the premium rate but are paid from our general administrative expenses. It is our policy not to pay commissions to producers with respect to a product for which the customer is also paying the producer a commission or other fee. Please note we also may make payments from time to time to producers for services other than those relating to the sale of policies (for example, compensation for services as a general agent or as a consultant).

Producer compensation is subject to disclosure of Schedule A of the ERISA Form 5500 for customers governed by ERISA and subject to form 5500 filing requirements. We have also taken steps to ensure that producers properly disclose their compensation arrangements to their customers, but we cannot guarantee the producer's compliance. For general information on our producer payment arrangements, please go to www.oxfordhealth.com. For specific information about the compensation payable with respect to your particular policy, please contact your producer.
