

# 9 Signal Programmers, Bells & Horns

Synchronized time for clocks, schedules—classroom, medications, shift changes—is important (*sometimes critical*)! In this section, American Time & Signal Co. offers **everything you need**—signal programmers, bells, horns and buzzers—to ensure **continuous, accurate time** throughout your facility.

## INSIDE

AllSync® Clock/Signal Programmer .....	189
Signal Programmers .....	190
Bells & Chimes .....	191
Horns & Buzzers.....	193
Edwards Fire Detection & Alarm Products.	194
Electromagnetic Fire Door Holders .....	195

**#1 choice to replace your outdated bell programmer!**

- Optional GPS (NIST accuracy) & Ethernet (remote programming)
- One clock circuit & up to 6 programmable circuits
- 99 schedules–9999 events–plus temporary schedule feature
- Automatic Daylight Saving Time and Leap Year correction
- Password Security feature
- Battery backup keeps time without external power and retains programmed data
- Manual control of signal circuits
- Quartz crystal time base accurate to ±2 minutes/year
- Impact-resistant polycarbonate enclosure

The AllSync Master is a state-of-the-art time management unit providing synchronized control of secondary clocks, bell signals and electrical circuits. Programming is fast and easy using a 16-button keypad. The AllSync Master **offers a choice of optional GPS and/or Ethernet inputs.**

**HOW TO ORDER**

Select a Series No. (based on the number of signal circuits you require); then an option(s) from the Time Program Options.

<b>1</b>	<b>AllSync Series</b>		
	<b>Series No.</b>	<b>Description</b>	<b>Base Price</b>
	ASMA00	(no signal circuits)	\$749.95
	ASMA02	(2 signal circuits)	\$799.95
	ASMA04	(4 signal circuits)	\$849.95
	ASMA06	(6 signal circuits)	\$899.95
<b>2</b>	<b>Time Program Options</b> (add code to end of Series No. to complete the order number)		
	<b>Code</b>	<b>Description</b>	<b>Additional Cost</b>
	B-WEB	No external time reference	None
	E-WEB	Ethernet (includes remote programming)	\$299.95
	G-WEB	GPS (antenna included)	\$799.95
	M-WEB	GPS and Ethernet	\$899.95
	<b>Part # H000818-WEB</b>	Additional 50' GPS cable	<b>\$153.95</b>
<b>Note:</b> GPS models include: Antenna, 50' cable and mounting brackets.			

1) Series No. + 2) Code = Complete Order Number  
 1) Base Price + 2) Additional Cost = Total Cost  
**Example:** Model No. ASMA02E is 2 signal circuits with Ethernet Time Option at a total cost of \$1,099.90

**Rack Mount Adapter**

This rack mount adapter for the AllSync® master clock allows the master to mount inside a standard 19" equipment rack. This makes it possible to keep all of your equipment together in one convenient location.

**H002944-WEB \$49.95**

**Note:** Masters are 110vac. Must have a step down transformer if using with 24vac bells. See page 111.

**Using AllSync with remote programming means:**

- The ability to manage schedules in one building or an entire complex right from your desk, utilizing an Ethernet (RJ45) connection and/or remote access through an Internet connection

**Unexpected schedule changes no longer cost us time and money!**

With AllSync remote programming, I sit at my computer at work (or even at home) to control the school schedules. It feels great knowing that I efficiently manage my time.

9 - Signal Programmers, Bells & Horns

# Signal Programmers

## YBP Plus Signal Programmer

**Convenient Surface Mount**  
Dimensions: 7<sup>1</sup>/<sub>4</sub>"h x 8<sup>3</sup>/<sub>8</sub>"w x 4<sup>3</sup>/<sub>8</sub>"d

Model No.	Description	Each
YBP02PLUS-WEB	2 circuit—16 schedule	\$429.95
YBP04PLUS-WEB	4 circuit—16 schedule	\$499.95
YBP06PLUS-WEB	6 circuit—16 schedule	\$529.95

**Note:** Programmers are 110vac. Must have a step down transformer if using with 24vac bells. See opposite.

The improved YBP Plus is a multi-circuit, dual-purpose programmer that can be used for signaling audible devices (*such as bells*) or as an on/off controller for electrical appliances. It is an excellent replacement for mechanical or obsolete chain type programmers—even those with the push-in pins. The ability to use existing wiring makes installation quick and easy!

- 16 schedules, 1440 events per schedule, as close as one minute apart
- Selectable features include 12/24 hour format, automatic Daylight Saving Time & security code
- Keeps time for up to 5 years without external power and retains programmed data indefinitely
- Dual-purpose—signal audible devices with a 1-9 second duration or on/off controller (*toggle*)
- Circuits can be manually activated

**IMPROVED!**

## Single Circuit Signal Programmers

**AP21-BP1-WEB \$525.95**

**EASY AND ECONOMICAL!**

This Bell Programmer System provides an easy to install, **“plug & play”** solution for ringing bells in small schools and factories. **No wiring required!**

- 24vac system
- Single circuit, single schedule
- Will ring bells up to 30 times per day
- Complete system package includes:  
AP21 Programmer mounted in key lock box  
1-6"-24vac vibrating indoor bell  
1-Power cord  
1-15' cable for bell
- 120vac to 12vac power module
- Keys for the lock box

**WHEN YOUR SITUATION CALLS FOR AN ADDITIONAL BELL**

**F-4436-24A1-WEB** Bell Assembly **\$209.95**  
6", 24vac bell and 100' of cable

**Note:** Must be located within 100' of the programmer.

**ATS-1-WEB Sonachron \$568.95**

- Dual purpose, single circuit program timer for signaling audible devices (*bells, horns or intercoms*), or for controlling electrical devices (*HVAC, appliances, etc*)
- Events can be activated by pressing a single key
- Keypad can be protected against unauthorized access
- Timekeeping accuracy is controlled by the 50 or 60 Hz power line frequency
- During power failures, a quartz oscillator provides uninterrupted timekeeping for up to 7 days
- Automatic adjustment for Daylight Saving Time and Leap Year

Dimensions: 5<sup>3</sup>/<sub>8</sub>"h x 9<sup>3</sup>/<sub>4</sub>"w x 3<sup>1</sup>/<sub>4</sub>"d  
Weight: 3.12 lbs. Shipping Weight: 7 lbs.

**Replacement Parts:**

A1239-WEB Battery \$29.95  
VIE0057-WEB Transformer \$39.95

## Signaling Equipment

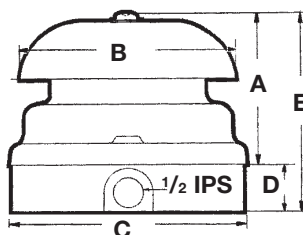

### Vibrating AC Supering Bells

10"	3 13/16"	10"	4 3/8"	1 3/8"	5 1/4"	96 to 100

Bells mount on standard single-gang or 4x4 electrical box

- Pig-tail type with universal back plate
- Gray finish with red labels
- Completely assembled with gong shell
- Phosphate rust-protected

**Are you ringing 24vac bells?  
See transformers below.**

\*Indoor Bells

\*\*Weather-resistant bells

## Tone Generator

- Multi-purpose tone generator for page alert, security or warning
- Produces four types of tones: pulsed tone, slow whoop, repeating chime and steady tone
- Contact closure triggering
- Wall-mountable steel enclosure
- 12 to 48vdc powered from 120vac adapter (included)
- Tone level and pitch are adjustable

### SPECIFICATIONS:

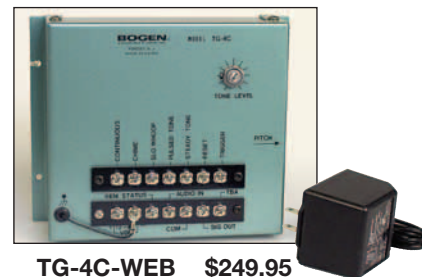

Output power: 1.5V RMS max. (aux level)

Activation: Contact closure

Power Supply: 12 to 48vdc

Unit Size: 5 1/2"h x 6"w x 2"d

Works with your existing intercom system

TG-4C-WEB \$249.95 with adapter

## Step Down Transformers

		16	10			
599-WEB	120	24	20	2 15/16"	1 5/8"	\$ 28.95
		24	40			

Step-down transformers provide low voltage power sources from 50 to 250 watts for all large signaling installations or any application requiring a heavy-duty transformer.

- Voltages of 120vac or 240vac
- Secondary 24vac
- Tapped to 12vac
- Holes provided for surface mounting
- Enclosed connections
- Pigtails for primary; terminals for secondary

### 590 Series Transformers

The 590 Series step-down transformers are equipped with a grounding wire and are suitable for installation in both plastic and metal boxes.

# Horns & Buzzers

## Edwards Horns

\*Mount on 870-B backbox

Adjustable volume control  
78-103 dB

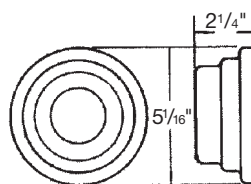

Designed to channel the sound in a particular direction without decibel loss. Convenient, simple Adaptable mounting on any style gang box: 3/4", 3/2" or 4" octagon box or 4" square box.

## Edwards Buzzers

### Heavy-Duty Adaptabuzzer

Fully insulated AC models have adjustable volume. Convenient Adaptable plug-in mounting permits buzzer to be snapped onto back plate after decorating. Mounts on any single gang box or 3/4", 3/2" or 4" octagon box.

## Edwards Fire Detection Products

### SC10 & SC30 Series Smoke Detectors

2 wire with base—12/24vdc

The SC Series ionization and photoelectric smoke detectors provide early warning of fast and slow burning fires.

The SC10 Series ionization detector provides reliable sensing of both visible and invisible products of combustion.

The SC30 Series photoelectric smoke detectors provide reliable sensing for conventional fire alarm applications, with an early response to a wide range of slow burning, smoldering fires.

Base included with both models.

Model No.	Description	Each
SC10U-3B-WEB	Ionization w/sensitivity test	\$64.95
SC30U-3B-WEB	Photoelectric w/sensitivity test	\$69.95
<b>SC Series Accessories</b>		
SCSBU-1-WEB	Detector base	\$ 9.95
SCSBU-3-WEB	Detector base with resistor	\$ 9.95
SCSB4U-1-WEB	Detector base, 4" square mount	\$ 9.95

### 280B Series Heat & Duct Smoke Detectors

The 280B Series are easy to install, mounting is included. They are a non-powered device and are UL Listed, FM approved.

Model No.	Description	Each
281B-PL-WEB	135° Fixed temperature & rate-of-rise	\$24.95
282B-PL-WEB	194° Fixed temperature & rate-of-rise	\$24.95
283B-PL-WEB	136° Fixed temperature	\$24.95
284B-PL-WEB	194° Fixed temperature	\$24.95

### SC20 Series Heat Detectors—12/24vdc

The SC20 Series heat detectors provide a reliable response to heat and fires, based on fixed temperature, high temperature fixed temperature or fixed temperature and rate-of-rise.

Model No.	Description	Each
SC20FTU-3-WEB	135° Fixed temperature	\$44.95
SC20RRU-3-WEB	135° Comb fixed temp & r-o-r	\$44.95
SC20HTU-3-WEB	180° Fixed temperature	\$44.95

*Order base separately - See accessories above left*

## Edwards Fire Alarm Signaling

Includes 6 replacement wicks

# Electromagnetic Fire Door Holders

## DH Series

The DH Series Electromagnetic Fire Door Holders are constructed of the finest materials available. Each wall mount door holder is made of durable die-cast metal and finished in a powder-coated chrome for a quality appearance.

The basic units offer superior reliability with built-in transient protection and low residual magnetism so they release easily even on new ADA low pressure door closers.

Electromagnet

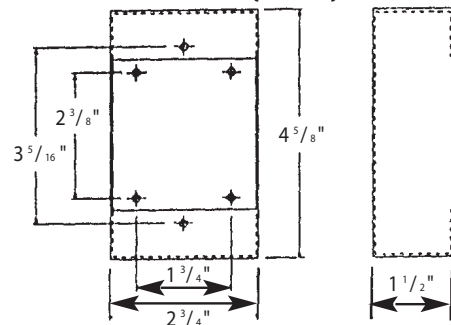

Swivel Base

Catch Plate

- Very low current draw
- Dual voltage inputs
- Terminal block connections
- High holding force
- Low residual magnetism
- Double chrome plating
- Surface mount backbox

Model No.	Description	Each
DH-24120-FPC-WEB	Flush	\$ 65.95
DH-24120-SPC-WEB	Surface	\$ 69.95
DH-24120-GPC1-WEB	Ground, single door	\$ 84.95
DH-24120-GPC2-WEB	Ground, double door	\$109.95
<b>Extensions:</b>		
DHE1PC-WEB	1" extension rod	\$ 5.95
DHE15PC-WEB	1 1/2" extension rod	\$ 6.95
DHE2PC-WEB	2" extension rod	\$ 8.95
DHE3PC-WEB	3" extension rod	\$ 10.95
DHE4APC-WEB	4" adjustable extension rod	\$ 11.95
<b>Accessories:</b>		
DHCP-WEB	Catch plate	\$ 8.95
DHSBP-WEB	Swivel base	\$ 19.95
DHBBP-WEB	Backbox	\$ 13.95
DHW-WEB	Extension wrench (w/pcs.)	\$ 2.95
DHDF-WEB	Swivel base mounting drill fixture	\$149.95

Surface Mounting:  
DHBB (backbox)

### Door Holder Legend:

DH=Door Holder  
F=Flush Mount  
S=Surface Mount  
G=Ground Mount  
C=Chrome Plating  
1=Single Coil  
2=Double Coil  
**Note:** #2 indicates double coil ground mount model

How to Order Example:

DH 24120 S C 1

Door holder  
Model/Voltage  
12/24, 24/120  
Mount Style  
Surface, Flush, Ground  
Finish  
Chrome  
Coils  
1,2

**Note:** All DH door holders are dual voltage AC or DC. Models shown above are 24 and 120vac or vdc. Voltage combinations 12 and 24 vac or vdc are also available at no additional cost. Call for model numbers.

Model	Voltage	DC/mA	AC/mA	Terminals	lb.
1224	24v	.085	.081	C & L	34.0
24120	120v	-----	.100	C & L	49.8
1224	12v	.040	.038	C & L	30
	24v	.040	.036	C & H	30
24120	24v	.020	.019	C & L	40
	120v	-----	.020	C & H	35

## Edwards 1500 Series

The 1500 Series provide a minimum holding force of 25 lbs. They are designed to be used on self-closing, swinging doors, automatically isolating an area when activated by fire alarm, smoke detection or sprinkler systems. They can also be manually operated wherever the instant closing of doors is necessary. Low power drain. FM approved.

Model No.	Description	Each
1501AQN5-WEB	Single door floor mount	\$134.95
1502AQN5-WEB	Double door floor mount	\$199.95
1504AQN5-WEB	Flush wall mount w/2 5/8" armature	\$108.95
1505AQN5-WEB	Flush wall mount w/1 5/8" armature	\$108.95
1508AQN5-WEB	Surface mount	\$114.95
1509AQN5-WEB	Flush wall mount w/7/32" low profile assy	\$119.95

1504

1501

1508

- Die-cast metal construction
- Powder epoxy aluminum finish
- Mounting hardware included
