## ABOUT US

**We strive to provide exceptional quality solutions to empower people and organizations to gain competitive and interactive relationships.**

“We succeed only when our clients benefit from our work”

SUMTECH established in 2003 and today is one of the leading company in UAE to offer you the best Business knowledge, Technology expertise , And best demonstration ability.

SUMTECH= The sum of technology + creativity and inspiration to the power of passion.

We excel in web design, multimedia solutions, branding, marketing collaterals & e-marketing tools. Based in Dubai, UAE the company shares of the values like unbounded enthusiasm to pursue growth, out of the box thinking & limitless creativity with the location.

SUMTECH provides solutions perfectly balanced between quality, time & costs. The company has achieved rapid growth to become popular by continuously delivering ‘works which work’ and driven by the knowledge that the ‘team-work always works’.

## WHY SUMTECH?

**We help you to achieve successful implementation of the latest technologies to keep pace with competition and market demands.**

Implementing and creating a new website may be one of the most important moves that a company undertakes. A website can enable a company to publish the latest information, sell products and services, reach audiences, decrease costs, and build tighter relationships with customers, employees and business partners

**So choosing a right company to design and develop the website is very important for any company,** We offer you the services that best fit your requirement. We offer a strategic planning and case study of the company to understand company’s goals, target audience and objective to develop a website. Based on the studies our marketing team does we provide you a complete solution with marketing and promotions plans for your company.

## OUR PROCESS

- **Obtaining information pertaining to your company by listening to your needs, asking questions, and offering advice.**
- **Researching and developing the solution that best fits your needs**
- **Involves testing, training,**
- **Communicating with you on a regular basis and maintenance**
