

**APPLICATION FOR GAS SERVICE
FORM "A"**

Date: _____

I, _____ (Customer), hereby apply to Niagara Mohawk Power Corporation (Company) to supply natural gas for use upon the premises located at:

I require gas service to begin on _____, 20____ and to continue until canceled. I agree to observe and perform all rules and regulations of Niagara Mohawk Power Corporation and to pay the rates provided by Service Classification No. _____ P.S.C. No. 219 filed with the P.S.C. of the State of New York.

I agree that if the premises are to be served from a main extension constructed, pursuant to Rule 10, of the **GENERAL INFORMATION**, contained in the Company's schedule for the Gas Service, P.S.C. No. 219 Gas, I will pay the charges required under this rule.

New and existing customers applying for Service Classification No. 13, Distributed Generation Service – Residential, are required to complete this "Form A" in accordance with Special Provision 2 of Service Classification No. 13.

_____ Existing Customer Applying for SC13

_____ New Customer Applying for SC13

If service is to be taken under Service Classification No. 13, I agree that, upon prior notice by the Company, the Company may install an Approved Remote Meter (ARM) at the premises to be served. I agree to provide access to an electrical supply, if necessary, and phone line for the operation of the device in an area acceptable to the Company.

I will provide Niagara Mohawk Power Corporation with a copy of the installation proposal for the gas appliance(s) to be installed. A copy of the installation proposal will be required with the submittal of this Form A.

In addition, I agree to reimburse Niagara Mohawk Power Corporation the entire cost of service line if I have not activated an appliance within one year of the date gas is available.

The cost of the service line is \$ 36.89 per foot.

This agreement is subject to the Terms and Conditions on the back of this agreement. National Grid agrees to install gas service to the above location (premises). I understand that I may cancel this agreement, without obligation, at any time prior to the installation of the gas service line and main. I hereby authorize National Grid to install a natural gas service line to the address noted above.

TERMS AND CONDITIONS OF RESIDENTIAL GAS SERVICE AGREEMENT

1. In the event that the actual service line and/or main length exceed tariff allowances, National Grid (NG) will require a contribution in aid of construction (CIAC). NG will notify Applicant(s) through a separate invoice of any required ciac. This payment must be made before any work is scheduled.
2. The term "Applicant" means the person or entity identified on the front of this form in the block next to Property Owner.
3. Once the meter is set, the Applicant becomes the customer of record and NG will commence billing the Applicant and the Applicant agrees to pay for gas service pursuant to the applicable rate classification and in accordance with NG's terms and conditions, as filed from time to time with the New York Public Service Commission.
4. Excavated lawn areas will be loamed and seeded. NG will take reasonable measures to minimize any damage to my property.
5. NG shall install the necessary natural gas distribution system to the site, subject to weather conditions and all federal, state and local codes and permit requirements. In the event that NG is unable to obtain the necessary permits to install the gas service line, NG shall not be obligated to perform such installation and this Agreement shall be null and void.
6. NG's obligations under this Agreement are subject to verification that there is an active natural gas main in close proximity to Applicant's property from which a service connection can be made in a reasonably cost effective manner.
7. (New Construction Only) Applicant shall (i) construct, or cause the construction of all necessary water lines, sewer lines, roads and electrical lines, and will perform other necessary work required to prepare the site for the installation and (ii) provide all easements, rights-of-way and permits necessary for NG to install natural gas distribution lines required to provide service.
8. Applicant warrants that it has provided NG with all information known to it concerning environmental contamination or threat thereof at or in the vicinity of the Premises.
9. NG shall not be responsible for any cost associated with any environmental contamination encountered by NG during the installation, including but not limited to the cleanup of such contamination.
10. In the event that environmental contamination is encountered during the installation, all work shall cease and NG shall provide immediate oral notice and written notice within three business days thereof to the Applicant. Thereafter, NG shall have no further obligations under this Agreement.
11. Applicant shall indemnify, to the fullest extent permitted by law, hold harmless and release NG, its parent company, affiliates and subsidiaries and their respective directors, officers, employees, agents, servants, representatives, successors and assigns from and against all claims and demands related to environmental contamination at or in the vicinity of the Premises, except to the extent attributable to the negligence or willful misconduct of NG. This indemnity and release provision survives the expiration or termination of the Agreement and extends to the respective successors and assigns of NG and Applicant.
12. This Agreement may be modified only by a writing signed by both parties; any verbal representations or modifications by NG employees or others shall be null and void.
13. NG shall own the natural gas distribution system up to the outlet side of each individual customer meter.
14. The laws of the State of New York shall govern this Agreement.
15. If any terms of this Agreement or portions thereof are declared or become invalid or unenforceable, the remainder of this Agreement shall continue in full force and effect.
16. All installations where excavating and backfilling are to be performed by Applicant or his/her designee will be performed in compliance with NG's specifications, and the installation shall not commence until said trench is inspected and accepted by a representative of NG's construction division.
17. In the event that the equipment identified on the front of this agreement is not installed and in use within 12 months of the date of installation of the service line, the Applicant agrees to pay NG the actual cost of installing and disconnecting the gas service line plus the actual cost of any required main work minus any payments already received.
